Commendations

In 2006 I shot some segments for a couple of National Geographic programs : Man Made and Mega Movers. Here's some feedback I got from the producers of Man Made:

Dear Greg,

I am producing the film on the can for Nat Geo. I just want to let you know your work at the bauxite mine is out of this world. I hope we have the opportunity to actual work together in person at some time. Beautiful work. Thank you.

Best,

Jonathan Halperin
